Is buying

a Forex Risk Management
Application expensive?

DiffEye+

Slim Costs. Fat Bottomlines.

DiffEye+ is a complete Forex Risk Management System for small, medium & large corporates helping them to take decisions in managing foreign exchange risk. Very flexible and user-friendly to any corporate treasurer. Instead of purchasing it, you can use it and pay for it.

- ☞ Manages Forex Transactions covering all types of Exposures (including Forex Loans) and Hedges marked-to-the-market*
- ☞ Provides a framework for balancing Risk vis-à-vis Return in a volatile Forex Market
- ☞ Measures Treasury Performance on Forex against pre-defined benchmarks
- ☞ Complies with Indian Regulatory requirements
- ☞ Facilitates integration with the existing systems of the company
- ☞ Web-based platform giving the users a hassle-free working environment

Overall, **DiffEye+** provides with a framework & tool to address all forex related issues helping the corporate to **DEFY RISK**.

Hire it. Use it. Pay for it.

DiffEye+ provides companies with a time-limited right to use the software, and access to any new versions of the software released during the subscription time-frame. The companies don't have to purchase products, but rather just subscribe to them for a period of time. **DiffEye+** is available on a Quarterly, Half-yearly & Yearly subscription, with payment in advance. Hire it. Use it. Pay for it.

This subscription model has its advantages:

- ☞ Spread out your payments, rather than making one large capital investment upfront
- ☞ Payments for subscriptions are more predictable and certain
- ☞ Risk can be reduced as only the current subscription's is ever at risk
- ☞ Lower Cost of Ownership
